

**Description****GREASE FOR BEARINGS**

Fulfills the requirements for lubrication under “extreme pressures”. Ideal to lubricate BEARINGS with sliding and rolling friction subject to high loads and vibrations.

Details**PHYSICAL-CHEMICAL AND TECHNICAL PROPERTIES**

Properties	Description	Properties	Description
Appearance	Ointment	Drop point ASTM D566	190°C
Colour	Beige	Worked penetration after 60 strokes	280 mm/ ²
NLGI consistency number	2	Worked penetration after 100,000 strokes	292 mm/ ²
Thickener type	Lithium	Welding load IP 239	270 kg
Temperature range	-25°/+120°C		

Important notes:

- High resistance to mechanical stress and heavy loads
- Excellent resistance to oxidation
- Excellent anti-wear, anti-corrosion and anti-rust properties
- Excellent adhesive strength
- Is not washed away by water
- Wide operational temperature range

Directions for use

Clean the parts to be treated from any residue of grease or lubricant used previously.
Evenly apply with a spatula or hard bristle brush to the required thickness.

Packaging available

125-500ml.
