

**Description****MOLYBDENUM DISULPHIDE GREASE**

Particularly suitable for lubricating parts subjected to very difficult conditions. Lubrication of bearings, articulated joints, discs bearings, joints, gear wheels, skids, articulated arms, pulleys, buckets, etc.

Details**PHYSICAL-CHEMICAL AND TECHNICAL PROPERTIES**

Properties	Description
Appearance	Ointment
Colour	Black
NLGI consistency number	2
Thickener type	Lithium
Temperature range	-20°/+140°C

Properties	Description
Drop point ASTM D566	180°C
Worked penetration ASTM D217	265/295 dmm

Important notes:

- Excellent anti-wear protection
- Maintains lubricant strength
- High stability of lubricant properties over time
- Is not washed away by water
- Wide operational temperature range
- Considerable mechanical stability and lubricant strength
- Good resistance to heavy loads and vibrations

Directions for use

Clean the parts to be treated from any residue of grease or lubricant used previously.
Evenly apply with a spatula or hard bristle brush to the required thickness.

Packaging available

125-500-5000ml
