

**Description****Detergent – Sanitizer for Machine Tools**

It is the most important maintenance product for any machine tool using emulsifiable lubricants and coolants. It is specifically made for cleaning and sanitizing the entire machinery system when emulsion needs to be changed.

Details**Product specifications****ADVANTAGES**

CLEANS AND SANITIZES
WITHOUT MACHINE DOWN
TIME

Optimises the system for
emulsion change.

Physical-Chemical Properties

Appearance and colour

Concentrated product

Yellow liquid

Specific weight

1.130 kg/l

pH (3% conc.)

12.5

Fragrance

Characteristic

Boiling Point

>100°C

Information on use

Insert into the emulsion to be replaced at a percentage of 1%. Work or leave the pump switched on for at least 6 hours. Then empty the tank contents and briefly rinse with clean water. Insert the new emulsion. Subsequently, protect the emulsion with Baclean R24.

Concentrations for Use

Standard

1% in the emulsion to be
changed

Packaging available

5-25l
