Inorganic and buffered acid-based product, anti-foam with special corrosion inhibitors. Specifically designed to remove limescale, carbonates, phosphates, oxides, sulphurs. Colour changing

## Details

## Product specifications

## INFO

SAFE

Also on Cast iron, alloys, etc.

EFFECTIVE

Very high concentration

PRACTICAL

Thanks to the colour change

## Physical-Chemical Properties

Colour and Appearance

## Concentrated product

Clear red-orange liquid

Specific weight

1.13 kg/l

Fragrance

Acrid

pH (3% conc.)

&lt;1

## Recommended use

## Equipment to use

Recirculation wash pump

## CLEANING PROCEDURES

1. Circulate the solution around the system. 2. Check the colour regularly. 3. When the red-orange colour turns yellow, it means the solution needs to be corrected by adding more product to return to the ideal colour. When no colour change occurs for approximately half an hour, it means the system treated has been cleaned. 4. Rinse well by loading the system with clean water several times.

## Standard dilutions for use

From 10% to 30% in water.

## COMPATIBLE MATERIALS

## YES

Cast iron

Steel

Copper

## YES

Steel and Rilsan

Enamelled Steel

## NO

Tinned components

Galvanised and stainless steel

Aluminium

## Packaging available

1l – 10 kg
